Music Festivals

EDUCATION

UNIVERSITY OF
WATERLOO

**Bachelor of Applied Science
in Systems Design Engineering**

Expected graduation date: June 2018

WORK EXPERIENCE

**HORIZN
STUDIOS**

TORONTO,
ONTARIO

Product Manager

SEP 2016 - Present

- Designed and templated product specification documents for new and existing features to ensure cross-platform consistency
- Created JIRA tickets to develop a new client platform
- Built a tool to display source code errors and bad practices using MySQL, PHP and Shell

**ROKK3R
LABS**

MIAMI BEACH,
FLORIDA

UX/UI Designer

JAN - APR 2016

- Created the user experience using mockups and wireframes for a portfolio company with Sketch
- Conducted 40 user interviews for persona validation, summarized results and presented them to client
- Founded Ridekick (see below), conducted research and created a brand, landing page, and pitch deck

**DELOITTE
CANADA**

TORONTO,
ONTARIO

Business Innovation Analyst

MAY - AUG 2015

- Managed, designed and developed iBeacon app that enhances the experience in a Deloitte client space
- Presented finished product to the space's stakeholders and Deloitte Partners
- Supervised, mentored and supported two high school students during their internship

**AUDATEX
(A SOLERA
COMPANY)**

TORONTO,
ONTARIO

Software Developer

SEP - DEC 2014

- Created ETL (Extract, Transform, Load) scripts to parse 100,000 data elements from various XML files into an Oracle relational database
- Reduced ETL runtime performance by 50%

SUSTAINABLE AND DISRUPTIVE SOLUTIONS

RIDEKICK

FOUNDER

ONGOING

- Working on an application for ridesharing in the Greater Toronto Area. I am looking to create meaningful connections and strong communities around daily commutes to work.

**HIGHWAY
ELECTRIFICATION**

PRODUCT MANAGER

AUG 2016

- Developed a solution for highways to power four-wheel vehicles while in motion. Conducted user interviews and pitched the solution to design class.
